NAILE GENERAL RULES AND REGULATIONS

Exhibitors are requested to familiarize themselves with all the rules of this show applicable to their exhibits.

Violation of Rules

Rule 1. All entries for exhibits of any kind or character in this animal exhibit are subject to these regulations and any violation will subject exhibitors to any penalties the Executive Committee may order.

Rule 2. The Exposition reserves to the General Manager and the Executive Committee the final and absolute right to interpret these rules and regulations and arbitrarily settle and determine all matters, questions or differences in regard thereto, or otherwise arising out of, or incident to, the show.

Ownership of Animals

Rule 3. All breeding animals in the purebred classes must have been owned by the exhibitor as of October 1st. All Junior Show animals are required to be owned by and shown by the individual in whose name it is entered. (See the specific show for other rules and required dates.)

Accepting Entries

Rule 4. The show management reserves the right to accept or reject entirely, partially or conditionally any entry or application. The management also reserves the right to personally, or appoint a committee to, inspect all entries after they have arrived, and dismiss any entries that would discredit the Exposition.

Erroneous Entries

Rule 5. Animals that have been erroneously entered may be transferred to their proper class prior to judging, upon application to the General Manager, who will appoint a committee to determine the case. If such classes have been judged, however, they shall not be reopened.

Entry Numbers

Rule 6. Each entry will be assigned a separate number in the official database of the Exposition. This numbered card must be displayed in the harness worn by the attendant when the animal is in the judging ring.

Assignment of Pens and Stalls

Rule 7. The assignment of all the spaces will be made by the superintendent of the breed of the show.

Care of Animals

Rule 8. The exhibitors themselves will be responsible for the delivery of their animals to the appropriate department at the designated times. Exhibitors will be required to attend to their animals while on exhibition and to have them presented to the judges when called. Any exhibitor who fails to present his animals in the ring when the class is called for to be weighed will be barred from the competition.

Appearance of Exhibits

Rule 9. The stalls, pens and exhibition places must be cleaned before 8:00 a.m. each day and all refuse matter disposed of as the superintendent may direct. Exhibitors are required to be neatly dressed when exhibiting stock in the show ring.

Removal of Exhibits

Rule 10. If you exhibit at this Exposition you will be expected to keep your livestock on the grounds until the published release date of your breed. All animals (except those shown) consigned to the various sales can be released immediately after the sale by obtaining a release slip from the General Superintendent's Office. (Anyone removing livestock from the grounds without show management approval is subject to forfeiture of all premium money.) Repeat violators will be subject to further action by the Executive Committee.

Releases

Rule 11. No livestock (for exhibit or sale) will be released until the exhibitor presents a paid feed bill and veterinarian bill then obtains a release form from the Livestock Superintendent's Office. Fraudulent or unauthorized releases will NOT be tolerated and the penalty may be a permanent ban by the Executive Committee on all exhibitors involved.

Refusal to Parade in Shows

Rule 12. Livestock parades are a great educational feature of this show. Exhibitors refusing, for any cause not meeting with the approval of the management, to lead out their animals for parade or for competition in the show ring when called by superintendents in charge, will not only forfeit all prizes previously won but may be barred from further participation in the show.

Conduct

Rule 13. False representation, interference, or discourteous conduct by an exhibitor will be dealt with by the Executive Committee according to the equities of the case.

Substitutions

Rule 14. Substitutions will be accepted for animals within class only. Substitutions can be made only in the name of the original exhibitor/recorded owner as listed in the entry catalog. Breed shows without defined classes can substitute only an animal of the same sex with a birth date within 60 days of the entry being substituted for.

Judges

Judges are requested to be familiar with all the rules and regulations of this Exposition and to especially know the rules bearing on the classes they will be judging.

Unworthy Exhibits

Rule 15. The Judges will not award prizes to any unworthy exhibit. Animals must be shown in such a manner as the judges require and if the exhibitors refuse to submit to the requirements of the judges, their animals will be dismissed.

Time of Judging

Rule 16. All animals must be exhibited before the judge in the show ring, with catalog number attached and cannot be awarded a prize while still in its stall or pen.

Decision of the Judges Final

Rule 17. The decision of the judges shall be final in all classes except where mistake, fraud, misrepresentation or collusion not discovered at the time of the award is proven. In such case, the General Manager, or such referee or committee as may be appointed, may make decisions; or at its discretion the cases may be appealed to the Executive Committee from whose decisions there can be no appeal.

Awarding of Premiums

Rule 18. Only two premiums per recorded owner can be awarded in any one class.

Awarding of Champion Prizes

Rule 19. In all Championship classes both a Champion and a Reserve Champion shall be selected. Only first place animals will be allowed to compete for championships. Second place winners in class from which the champion was selected are eligible to compete for Reserve Champion.

Premiums

Rule 21. Premiums will be forwarded to the exhibitors as they may direct, as soon after the close of the Exposition as they can properly be processed. Cash premiums are payable by bank check. All premiums whatsoever, not claimed by November 1 of the following year, shall be deemed forfeited to the management or donors.

Special Premiums

Rule 22. All special premiums will be awarded by the judge after judging the regular awards. The Exposition is not responsible for the payment of special premiums but they are all offered in good faith and should be paid promptly.

Protests

Rule 23. All protests must be in writing and accompanied by a deposit of \$500 which will be forfeited if protest is not sustained. Such protest must be delivered to the General Manager within six hours after the occasion of such protest, or if age is brought into question, one day, prior to the day on which the animals are to be judged. Protests will be considered by the Executive Committee as quickly as possible and their decision in the matter shall be final.

Rule 24. Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show.

Required Performance Data

Rule 25. In order to emphasize the use of, as well as, the need for performance data in beef cattle production, the following procedure will be maintained for all beef cattle shows at NAILE. All animals will be weighed prior to entering the show ring. Each class will be called for separately to be weighed approximately one class prior to entering show ring. The total weight, as well as, the weight per day of age will be recorded on a card and placed in the exhibitor's harness.

ALL ANIMALS WILL ENTER THE SHOW RING ACCORDING TO AGE AS DIRECTED BY THE BREED SUPERINTENDENT.

Rule 28. All group entries are to be made at the show when entries are checked.

Rule 29. In the Beef Department, no more than one fan (overhead preferred) per three head of cattle will be allowed. No fans will be allowed in the aisles. Also, no portable generators are allowed in the building.

Rule 30. Breed registration: An animal is eligible to enter or compete in the North American in only one breed classification regardless if the animal is registered with one or more breed associations or registries. Percentage animals with more than one set of registration papers must be exhibited as entered on original entry form. Percentage animals must be exhibited in the same Open and Junior Breed Show. No switching between breeds will be allowed. Furthermore, the animal must be registered in the recognized U.S. registry for their breed classification or if registered in country of origin outside the U.S., the animal must be eligible for registry in the recognized U.S. registry. No changes will be permitted after a breed is designated.

Rule 31. Dogs will NOT be permitted on the grounds of the Kentucky Exposition Center during the course of the North American International Livestock Exposition except those under leash control of the owner. Any dog running free will be impounded and removed from the grounds.

Rule 32. Any publications or lists prepared by the NAILE management are to be informative only and are NOT to be considered as legal documents of title or ownership.

Rule 33. If any damage, loss or injury to person or property shall be caused by reason of any neglect or willful act of any person, firm, or corporation, or their agents, representatives, servants, or employees having license or privilege to exhibit, or occupy any space on the North American International Livestock Exposition grounds, the North American International Livestock Exposition shall, in no manner, be responsible therefore, and in case it be subjected to any expense or liability, all persons causing same, or liable therefore, shall indemnify the NORTH AMERICAN INTERNATIONAL LIVESTOCK EXPOSITION.

Rule 34. All transit animals will require identification, health papers, and bill of sale to be on the grounds and must obtain a release from the Division of Animal Health before leaving grounds. 840 EID

Rule 36. Health papers will be checked on all livestock before they enter the buildings. Please have health papers with your animals and watch for signage with instructions.

NATIONAL CODE OF SHOW RING ETHICS

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the North American International Livestock Exposition. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain, free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the

- animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
 7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
 8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
 9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
 10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
 11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

The following PREMIER EXHIBITOR AWARD AND PREMIER BREEDER AWARD will be given for each breed.

PREMIER EXHIBITOR AWARD - This award is to be made to the exhibitor winning the most points on no more than six animals owned and exhibited by himself in the open single classes. No more than one of the six to be bulls. (No limit on number exhibited but award automatically figured on top six animals winning the most points) - BANNER

PREMIER BREEDER AWARD - This award to be made to the breeder on no more than six animals winning the most points in open single class, including animals bred by him but exhibited by others. No more than one of the six to be bulls. (No limit on number exhibited but award automatically figured on top six animals winning the most points) - BANNER

In case of tie on the points system, the exhibitor or breeder winning the most money on the same animals will be awarded the prize. In case of partnership animals, the person that enters the exhibits will receive the points, however, if the animal is entered in a partnership name, then the partnership will receive the total points.

The Point System for determining Premier Breeder and Premier Exhibitor is as follows:

	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
Senior Females	20	18	16	14	12	10	8	6	4	2
Junior Females	10	9	8	7	6	5	4	3	2	1

BEST UDDER AWARD - It is recommended that in each of the milking cow classes the judge selects the 1st and 2nd best uddered cows in each class. This selection shall be made on the basis of udder alone and a milk-out will be at the discretion of the judge. It is recommended that the two cows in each class be given special recognition just prior to the final placing of their respective class. The best uddered cows from each of the classes will not compete for an overall best udder award of the show.

10. The Exposition Management would appreciate the courtesy of all cattle exhibitors if they remove all female cattle from the barns when they freshen and not return these animals to exhibition barns until they are thoroughly clean. This is only fair to the public and other exhibitors in that it removes any possible nuisance.

In addition, two open substitution (out of class) will be allowed per herd unit of the same breed. Once an animal has been substituted in either the Junior or Open Shows, the original animal entered shall be eliminated from any further competition.

17. **All (ADA) reasonable accommodation requests will be addressed in the order that they are received and can be sent directly to naile@kyvenues.com. Requests shall be sent no later than 5:00pm EST the day before the exhibitor plans to show.**
18. The moving of stall assignments by exhibitors is NOT allowed. Violators will be subject to further action by NAILE staff.
19. All animals in production classes are subject to ultrasound testing and milk sample testing. The testing is pursuant to Kentucky Law KRS 246 dealing with unethical practices used in regard to livestock and the criminal penalties involved. In order to maintain the integrity of the exhibition and presentation of dairy animals, the NAILE will continue a testing program at this year's Expo. Animals may be required to be ultrasounded and milk samples taken if deemed necessary by show officials. Failure to follow the request of show officials may cause disqualification of all of the exhibitor's entries.

The Purebred Dairy Cattle Association SHOW RING CODE OF ETHICS

(Adopted by PDCA May 5, 2015)

The showing of registered dairy cattle stimulates and sustains interest in the breeding of registered dairy cattle. It is also an important part of the promotion, merchandising and breeding program of many breeders. For these reasons, the Purebred Dairy Cattle Association (PDCA) believes that it is in the best interest of all breeders of registered dairy cattle to maintain a reputation of integrity in dairy cattle shows and to present a wholesome and progressive image of dairy cattle in the show ring.

PDCA endorses this Show Ring Code of Ethics for all dairy breed shows and pledges its full cooperative support for its enforcement to show management, show judges, and the national breed associations.

The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics. Dairy cattle exhibitors shall, at all times, deport themselves with honesty and good sportsmanship.

It is recognized that there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy state so they might be presented in the show ring in a natural, normal condition. At all times, exhibition livestock shall be treated in a humane manner and in accordance with dairy quality assurance practices so as to protect the health, safety and welfare of the livestock and the consuming public. No person shall present for exhibition or exhibit an animal which he or she knows, or has reason to suspect, is affected with or has been exposed to a dangerously contagious or infectious disease, or illegal or non-approved use of drugs, medication and/or prohibited substance, or residue.

The position of the Purebred Dairy Cattle Association is that all animals presented for exhibition shall be in their natural conformation and structure, free of any alteration or modification by injection or internal or external administration of any substance or by any involvement in unethical fitting.

Grooming and Preparation

Dairy cattle exhibitions are conducted under standards for evaluating conformation established by the PDCA *Unified Score Card* (1994), with specific breed characteristics taken into consideration by the show judge. In this connection, animals will be groomed and prepared for the judge's evaluation in order to display the animal's natural contour, conformation, performance and mobility. Specifically:

1. Changing the natural color of the animal is prohibited. However, external applications of cosmetics that affect only appearance may be used, including by way of example hoof polishes and false switches.
2. The maximum allowable length of naturally growing hair anywhere on the topline is not to exceed 1". (See Holstein rules concerning hair length) Exhibitors will be required to comply with this rule before the animal is allowed to enter the ring.
3. Addition of foreign objects, including but not limited to hair or hair substitutes, cloth or fiber, to change the natural contour or appearance of the animal's body is prohibited.

4. Externally sealing the teat end with a preparation that does not harm the animal's skin is permissible. Natural teat placement will be given preference over artificially positioned teats.

Violations: False, Deceptive or Unacceptable Practices

These practices are violations of the Code of Ethics and will be reported to show management and may be reported to the respective national breed associations:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally:
 - a. with an irritant or counter-irritant,
 - b. using a device to artificially create or enhance the udder crease,
 - c. using other substances as detected by testing that causes changes in the udder to artificially improve the conformation.
 - d. plugging of teat canal with foreign substances.
3. Surgical or unethical insertion of any matter under the skin or into body cavities, performed to change the natural contour or appearance of the animal's body (e.g., administration of fluid via a stomach tube or other similar apparatus to fill the rumen), though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring or other conduct detrimental to the breed or the show.
5. Challenging, threatening or interfering with an ethics committee appointed by show management to monitor the animals on exhibit on the show grounds.

Exhibitor Responsibility

The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (hereinafter referred to as "Exhibitor") for show management to obtain any specimens of urine, saliva, blood, milk, or other substances from the animal to be used in testing. Materials may also be collected by ultrasound and photographic methods and by direct examination of animal.

The act of entering an animal is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor") to have disciplinary action for violation of this Show Ring Code of Ethics taken by show management, the state in which the show occurs, and/or the national dairy breed association without recourse.

Show Ethics Committee

Each show should have an Ethics Committee. The make-up of this committee should include official breed representatives, representative(s) of show management (e.g., dairy cattle show superintendent, General Manager), the official show veterinarian, and Extension representative.

The Ethics Committee will be responsible for monitoring violations of the Show Ring Code of Ethics. The Ethics Committee will investigate the report of any violation and determine the accuracy of the allegation. The Ethics Committee will have the authority to inspect animals and related material to determine if violations have occurred.

Violations: Reporting and Investigation

Complaints of alleged violations can be reported to the breed superintendent, the show superintendent, show management, and/or the Ethics Committee.

Before An Animal is Shown

If the Ethics Committee suspects that a violation of the Show Ring Code of Ethics will occur if the animal is shown, and that violation is reasonably well established before the animal is shown, the Ethics Committee will submit a report to show management.

Show management will discuss the violation with the Exhibitor:

1. If, at the Exhibitor's discretion, the animal in question is not shown, no violation will have occurred.
2. If the Exhibitor wishes to challenge that a violation occurred, he/she/they will have opportunity to appeal to the Ethics Committee. If its decision is not changed, the Exhibitor will be denied opportunity to exhibit the animal in question.

During and After An Animal is Shown

All animals are subject to examination during judging. The judge and Ethics Committee are instructed to examine the top five (5) animals in each class closely for violations of the Show Ring Code of Ethics. When a violation may have occurred, a milkout may be called for. This call may be by breed association rule, or by request of an authorized representative of the national breed association, the judge, the Ethics Committee, or show management.

If an animal is exhibited and a violation of the Show Ring Code of Ethics is subsequently suspected, investigated, and determined to have occurred, the violation will be reported to the Ethics Committee and show management for action. The Exhibitor will be notified of the violation and the supporting evidence and invited to defend or explain the allegations.

Violations are subject to the disciplinary provisions of show management, the state in which the show occurs, and the national dairy breed association. Sanctions may include any one, or combination of the following:

- forfeiture or return of awards, prizes, premiums or proceeds;
- written letter of reprimand to the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor");
- disqualification of the exhibition livestock from an exhibition;
- disqualification of the Exhibitor from the show;
- publication of offense.

Disqualification may include any or all shows and classes and may be for any number of years.

History: Adopted by PDCA in March 1969, revised March 1971, February 1977, February 1981, February 1986, February 1988, February 1989, February 1992, February 1993, November 1995, April 2002; April 2004.

The North American International Livestock Exposition Board has approved the above code provided it is enforced by a committee, including official show veterinarian, and provided the rules are enforced in such a manner they do not preclude normal, needed veterinary care.

MILKING PARLOR

THE NORTH AMERICAN INTERNATIONAL LIVESTOCK EXPOSITION WILL HAVE A MILKING PARLOR FOR THE CONVENIENCE OF THE DAIRY EXHIBITORS AND EVERYONE IS WELCOME TO USE IT. ANY EXHIBITOR WISHING TO BRING A PORTABLE MILKING STAND FOR THEIR OWN USE, SHALL ALSO BRING MILK CANS.

1. ALL milk from each exhibitor's cattle will be tested for the presence of antibiotics at each milking.
2. All bulk tanks will be tested for antibiotics prior to delivery to a processing plant. Tanks of milk found to contain antibiotics shall be disposed of.
3. **Any exhibitor found offering milk for sale containing antibiotics or other unacceptable milk may be penalized.**
4. The North American International Livestock Exposition Executive Committee may bar repeat or chronic violators from participating in the Exposition.

“Total Performance Cow Award”

ELIGIBILITY

Animals shall place in the top 50% of their respective classes to compete. A cow shall have at least two completed records of 305 days or less. Both records used shall be DHIR or DHI. An average of the top two completed 305 day or less actual production records will be used. Yield Deviation (YD) on official AGA pedigrees will be used and the type appraisal scores will be verified. Dry cows are not eligible. This is not a lead out class, however, the winning animal will be asked to return to the ring and the awards presentation will be made at this time.

Points will be calculated as follows:

Production - 10 points for each 1,000 pounds of milk based on the average of the top two records. One point for each 10 pounds of combined butterfat and protein (CFP) based on the average of the top two records.

Yield Deviation - 10 points for each 100 pounds of milk, one point for each pound of CFP.

Appraisal Score - The cow’s current official appraisal score will be doubled.

Show Placings - Points will be awarded on the basis of the official placing in the class. These points will be taken from the scale used for Premier Breeder and Premier Exhibitor and multiplied by 20 to equal show points.

Breeder - 50 bonus points shall be awarded if the exhibitor is the breeder of the animal.

If a tie should exist, a lactation factor shall be applied, with 10 points being awarded for each lactation the cow has completed.

I. THE PUREBRED DAIRY CATTLE ASSOCIATION SHOW RING CODE OF ETHICS Adopted May 5, 2015

The showing of registered dairy cattle stimulates and sustains interest in the breeding of registered dairy cattle. It is also an important part of the promotion, merchandising and breeding program of many breeders. For these reasons, the Purebred Dairy Cattle Association (PDCA) believes that it is in the best interest of all breeders of registered dairy cattle to maintain a reputation of integrity in dairy cattle shows and to present a wholesome and progressive image of dairy cattle in the show ring.

PDCA endorses this Show Ring Code of Ethics for all dairy breed shows and pledges its full cooperative support for its enforcement to show management, show judges, and the national breed associations.

The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics. Dairy cattle exhibitors shall, at all times, deport themselves with honesty and good sportsmanship.

It is recognized that there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy state so they might be presented

in the show ring in a natural, normal condition. At all times, exhibition livestock shall be treated in a humane manner and in accordance with dairy quality assurance practices so as to protect the health, safety and welfare of the livestock and the consuming public. No person shall present for exhibition or exhibit an animal which he or she knows, or has reason to suspect, is affected with or has been exposed to a dangerously contagious or infectious disease, or illegal or nonapproved use of drugs, medication and/or prohibited substance, or residue.

The position of the Purebred Dairy Cattle Association is that all animals presented for exhibition shall be in their natural conformation and structure, free of any alteration or modification by injection or internal or external administration of any substance or by any involvement in unethical fitting.

Grooming and Preparation

Dairy cattle exhibitions are conducted under standards for evaluating conformation established by the PDCA Unified Score Card (2009), with specific breed characteristics taken into consideration by the show judge. In this connection, animals will be groomed and prepared for the judge's evaluation in order to display the animal's natural contour, conformation, performance and mobility. Specifically:

1. Changing the natural color of the animal is prohibited (effective 6/1/2015). However, external applications of cosmetics that affect only appearance may be used, including by way of example hoof polishes and false switches.
2. The maximum allowable length of naturally growing hair anywhere on the topline is not to exceed 1" (Holstein guidelines will allow up to 1½"). Exhibitors will be required to comply with this rule before the animal is allowed to enter the ring.
3. Addition of foreign objects, including but not limited to hair or hair substitutes, cloth or fiber, to change the natural contour or appearance of the animal's body is prohibited.
4. Externally sealing the teat end with a preparation that does not harm the animal's skin is permissible. Natural teat placement will be given preference over artificially positioned teats.

Violations: False, Deceptive or Unacceptable Practices

These practices are violations of the Code of Ethics and will be reported to show management and may be reported to the respective national breed associations:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally:
 - with an irritant or counter-irritant,
 - using a device to artificially create or enhance the udder crease,
 - using other substances as detected by testing that causes changes in the udder to artificially improve the conformation.
 - plugging of teat canal with foreign substances.
3. Surgical or unethical insertion of any matter under the skin or into body cavities, performed to change the natural contour or appearance of the animal's body (e.g., administration of fluid via a stomach tube or other similar apparatus to fill the rumen), though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring or other conduct detrimental to the breed or the show.
5. Challenging, threatening or interfering with an ethics committee appointed by show management to monitor the animals on exhibit on the show grounds.

Exhibitor Responsibility

The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (hereinafter referred to as “Exhibitor”) for show management to obtain any specimens of urine, saliva, blood, milk, or other substances from the animal to be used in testing. Materials may also be collected by ultrasound and photographic methods and by direct examination of animal.

The act of entering an animal is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (the “Exhibitor”) to have disciplinary action for violation of this Show Ring Code of Ethics taken by show management, the state in which the show occurs, and/or the national dairy breed association without recourse.

Show Ethics Committee

Each show should have an Ethics Committee. The make-up of this committee should include official breed representatives, representative(s) of show management (e.g., dairy cattle show superintendent, General Manager), the official show veterinarian, and Extension representative.

The Ethics Committee will be responsible for monitoring violations of the Show Ring Code of Ethics. The Ethics Committee will investigate the report of any violation and determine the accuracy of the allegation. The Ethics Committee will have the authority to inspect animals and related material to determine if violations have occurred.

Violations: Reporting and Investigation

Complaints of alleged violations can be reported to the breed superintendent, the show superintendent, show management, and/or the Ethics Committee.

BEFORE AN ANIMAL IS SHOWN

If the Ethics Committee suspects that a violation of the Show Ring Code of Ethics will occur if the animal is shown, and that violation is reasonably well established before the animal is shown, the Ethics Committee will submit a report to show management.

Show management will discuss the violation with the exhibitor:

1. If, at the exhibitor’s discretion, the animal in question is not shown, no violation will have occurred.
2. If the exhibitor wishes to challenge that a violation occurred, he/she/they will have opportunity to appeal to the Ethics Committee. If its decision is not changed, the Exhibitor will be denied opportunity to exhibit the animal in question.

DURING AND AFTER AN ANIMAL IS SHOWN

All animals are subject to examination during judging. The judge and Ethics Committee are instructed to examine the top five (5) animals in each class closely for violations of the Show Ring Code of Ethics. When a violation may have occurred, a milkout may be called for. This call may be by breed association rule, or by request of an authorized representative of the national breed association, the judge, the Ethics Committee, or show management.

If an animal is exhibited and a violation of the Show Ring Code of Ethics is subsequently suspected, investigated, and determined to have occurred, the violation will be reported to the Ethics Committee and show management for action. The exhibitor

will be notified of the violation and the supporting evidence and invited to defend or explain the allegations.

Violations are subject to the disciplinary provisions of show management, the state in which the show occurs, and the national dairy breed association. Sanctions may include any one, or combination of the following:

- forfeiture or return of awards, prizes, premiums or proceeds;
- written letter of reprimand to the owner, exhibitor, fitter and/or absolutely responsible person (the “exhibitor”);
- disqualification of the exhibition livestock from an exhibition;
- disqualification of the exhibitor from the show;
- publication of offense.

Disqualification may include any or all shows and classes and may be for any number of years

II. CLASS RULES

The following class rules are to be followed at all National Holstein Shows:

A. Only animals of 87% Registered Holstein Ancestry or higher will be eligible.

B. Bred and Owned Recognition Rules

To be considered for Bred & Owned awards, one of the original owners shall be listed as one of the current owners. Where a herd is registered in the names of different members of a family and where the herd is one unit, all entries may be considered as exhibits of one breeder.

Note: Please refer to the Junior Holstein Showring Policy, Rule F, for the definition of Bred and Owned for Junior Shows.

C. Premier Breeder and Premier Exhibitor Rules

1. Premier Breeder

The owner of the dam at the time of service shall be considered the breeder of the animal. Where a herd is registered in the names of different members of a family, and where the herd is one unit, all entries may be considered as exhibits of one breeder. Otherwise, when animals are bred in partnership, each unique partnership is considered a unique breeder.

The exhibitor winning the most points (for a maximum of six animals exhibited in the open single classes by him/herself and/or other exhibitors) shall be designated the Premier Breeder. In classes with ten or less animals, no more than two head per breeder will be counted toward premier points.

2. Premier Exhibitor

The exhibitor shall be the owner. In case a herd is registered or bred in the names of different members of a family, residing on one farm or breeding establishment, and where the herd is one unit, all entries may be considered as a single exhibitor for all group classes. However, members of one family, where cattle are not housed as one unit, will not be considered as a single exhibitor. When animals are owned in partnership, each unique partnership is considered a unique exhibitor.

The exhibitor winning the most points (for a maximum of six animals which he/she owns and exhibits in the open single classes) shall be designated the Premier Exhibitor. In classes with ten or less animals, no more than two head per breeder will be counted toward premier points.

D. Group Class Rules

1. Junior Best Three & Best Three Females

Entries in the group classes shall be entered and shown in their individual animal classes. All shall be bred by the exhibitor and at least one animal shall be owned (solely or in partnership) by the exhibitor.

Breeder is identified as listed on the registration paper. Where animals are bred by different members of a family, and where the herd is one unit, they are considered as bred by one breeder. When animals are bred in partnership, each partnership is considered a unique breeder.

In keeping with the basic philosophy of the Holstein Association USA, ethics are an individual responsibility of the owner of each animal shown. Violations of these policies are subject to the disciplinary provisions of the Association Bylaws.

Animals shall have a minimum of 87% Registered Holstein Ancestry (RHA) to be eligible for the designated shows.

C. Ownership: Animal must be registered in the name of the Junior member, or a partnership of Junior members, throughout the year exhibiting in order to qualify for Junior recognition. Adult-Junior and family or farm partnerships are not acceptable.

For an animal (cow or heifer) being transferred to a Junior, or a partnership of Juniors, the transfer application must be received by the Holstein Association USA office on or before July 15th by 11:59 pm Eastern Time

**Canadian owned animals must be dually registered in Canada and the U.S. Animals must be transferred in Canada prior to transferring in the U.S. Transfers in the U.S. must still be made by 11:59 pm Eastern time.*

The following actions will disqualify an animal from Junior recognition:

- Transferring an animal in or out of a Junior's name after July 15 of the show year
- Adding or dropping any adult or Junior member as an owner after the deadline

D. Lease: The Junior leasing program is designed to encourage young people to get involved in a dairy project and learn about animal care and responsibility. The leased animal remains in the original ownership and, if the leased animal is bred, any offspring are named using the owner's prefix.

1. The leasing program is not available to youth who concurrently own any Registered Holsteins either as an individual or in partnership. However, if the lessee becomes the owner of the animal anytime during the year exhibiting, they will qualify for junior recognition.

2. A maximum of two Registered Holsteins may be leased by any youth at one time. Animals may not be leased by partnerships.

3. The lease may be terminated by either the owner (lessor) or the youth (lessee) by providing written notice to the other party 45 or more days before the

intended termination date. A Lease Termination Report shall be filed with Holstein Association USA. If the animal has been sold, submitting an application for transfer of ownership will also terminate the lease.

4. The animal shall be leased before she reaches her first birthday.
5. Leased animals may only be shown by the lessee (Junior). If a leased animal is shown by an adult, the lease is automatically terminated. The leasing Junior shall show the animal at all shows; no substitutions may be made.
6. The owner of an animal to be leased shall submit the Certificate of Registration for that animal and a completed Application for Transfer, with the "Lease" box marked, to Holstein Association USA, Inc. All lease applications shall be received by June 1 in the year exhibiting.
7. The fee to lease an animal is \$20. There is no fee to record a lease termination.
8. When a lease is initiated and approved, the Certificate of Registration will be printed with the lease details and mailed to the Junior lessee. When a lease is terminated and the Certificate of Registration is returned to Holstein Association USA, the lease termination will be recorded on the certificate and the certificate will be mailed to the owner. All leases expire on December 31 of the year in which the junior lessee becomes 21 years of age if not terminated prior to that date.

- E. Exhibition:** To be eligible to compete at National Shows, entries shall be shown by the Junior owner in all cases, except by prior written approval. Alternate Leadsperson forms shall be submitted to the Holstein Youth Program Specialist by 5:00 p.m. the day before the show. If approved, another National Junior Holstein member the same age or younger than said exhibitor shall show the animal. Adults are not allowed to show, in any case, or assist with the Junior State Herd Class. A leased animal may only be shown by the Junior lessee.
- F. Bred & Owned:** To be eligible for Junior Bred & Owned, the name(s) listed as breeder and owner on the registration certificate shall be the same. Adult-Junior partnerships are not acceptable. Family unit or farm partnerships will not qualify for Bred & Owned awards unless all partners are Junior members and listed on the certificate under breeder and owner.
- G. Partnership:** All animals shall stand on the Association records in the individual name of the exhibitor. Adult-Junior partnerships will not be acceptable. Family or farm partnerships are not acceptable unless all members are Junior members and listed on the registration paper. The only acceptable partnership will consist of two or more Junior members. In case of partnership animals, all owners shall not exceed 21 years of age as of January 1 of the participating year.
- H. Violations:** If any of the above Junior Show Ring Policy is violated, all Junior exhibitors involved will lose all privileges for that show the following year.

- 34 Premier Performance Cow – This is a lead-out class that recognizes two cows in each class based on their total performance. However, if only two cows are shown in the class, both cows are eligible for the award. Only cows placing in the top 50% of their respective class are eligible for this award. Cows are ranked on a 100-point scale based on three different measurements: (1) placing rank in class (50 points), (2) rank for genetic merit as measured by AJCA Jersey Performance Index™ (25 points), and (3) rank for production, as measured by USDA Yield Deviation (25 points). In the event of a tie on Premier Performance points, the tie will be broken by the cow's placing within the class.

The top two cows for performance points from classes 14 to 19 and 22 to 26

will be ranked for this class. The first- and second-place Premier Performance winners from the National Jersey Jug Futurity are also eligible for this class, unless they are shown in the Open Show and fail to qualify (see rules for class 37). Premiums offered for class 34 are forfeited by any individual class qualifier that does not return to the ring for this class to receive their award.

Cows qualifying for class 34 retain their placing rank points from their individual class, but are re-ranked for genetic merit and production. The Premier Performance Cow is the individual with the greatest number of accumulated points.

In the event of a tie on Premier Performance points, the tie will be broken: first, by the cows' placings within the original class that qualified them for class 34; second, by their rank for Yield Deviation within class 34; and third, by their rank for highest actual pounds of milk within class 34.

SPECIAL RULES

Futurity Winner: The Winner of the National Jersey Jug Futurity qualifies for her respective champion class in The All American Jersey Show. If a junior three-year-old she will be eligible for the Intermediate Champion class or will be eligible for the Senior Champion class if a senior three-year-old. The winner is NOT eligible to show in her class in the Open Show. The breeder of the Winner earns first-place senior female points

for calculation of the Premier Breeder Award. The Recorded Owner (exhibitor) for the Futurity Winner earns first-place senior female points for calculation of the Premier Exhibitor Award, even if ownership changes before the Open Show.

Reserve Winner: The second-place cow (Reserve Winner) qualifies for her respective champion class in the All American Jersey Show. If a junior three-year-old she will be eligible for the Intermediate Champion class or will be eligible for the Senior Champion class if a senior three-year-old. She will be awarded second-place senior female points for Premier Breeder and Exhibitor as described above. However, this cow has the option of being shown in her class in The All American Jersey Show. She will not be eligible for the champion class unless she places first or second in her age class in the open show, and will earn Premier Breeder and Premier Exhibitor points ONLY for the open show placing.

Premier Breeder and Premier Exhibitor Points: Cows placing third, fourth, fifth and sixth in the Futurity (class 37) and that do not show in the Open Show will earn points for their placings as follows: for Premier Breeder, to the Breeder of record; for Premier Exhibitor, to the Recorded Owner when the cow was exhibited in the Futurity, even if ownership changes before the Open Show. *However, if shown in the Open Show, these points are forfeited and the cow will earn Premier Breeder and Premier Exhibitor points only for the Open Show placing.*

Highest Ranking Female Bred by Exhibitor: Animals are qualified for this award, when (1) the names of the Breeder and Recorded Owner are identical on the registration certificate; or (2) when the Recorded Owner is a member of the Breeder's immediate family and has use of the Breeder's prefix.

Highest Ranking Junior-Owned Cow. This special award recognizes the highest ranking cow that is shown in the Futurity in the recorded ownership, sole or partnership, of the junior leading it in the show. All other eligibility rules of The All American Junior Jersey Show will apply. Cows led by NAILE-approved alternate junior leadspersons are not eligible.

Premier Performance Award. Premier Performance points will be calculated as for class 31, with an award presented to the top-ranked cow shown in the Futurity. The two highest ranked cows qualify for class 31, unless they are shown in the open show and fail to qualify for class 31 based on their open show placing

28 Premier Performance Cow – The class recognizes two cows in classes 11 to 16 and 19 to 22 based on their total performance. However, if only two cows are shown in the class, both cows are eligible for the award. Only cows placing in the top 50% of their respective class are eligible for this award. Cows are ranked on a 100-point scale based on three different measurements: (1) placing rank in class (50 points), (2) rank for genetic merit as measured by AJCA Jersey Performance Index (25 points), and (3) rank for production, as measured by USDA Yield Deviation (25 points). In the event of a tie on Premier Performance points, the tie will be broken by the cow’s placing within the class.

Cows qualified for Class 28 retain their placing rank points from their individual class, but are re-ranked for genetic merit and production. The Premier Performance Cow is the individual with the greatest number of accumulated points. In the event of a tie on Premier Performance points, the tie will be broken: first, by the cows’ placings within the original class that qualified them for Class 28; second, by their rank for Yield Deviation within Class 28; and third, by their rank for highest actual pounds of milk within Class 28. Premiums offered for Class 28 are forfeited by any individual class qualifier that does not return to the ring for this class.

2024 POT O'GOLD SALE
Production Awards to be presented in 2026

Saturday, November 9, 2024 at 1:00 p.m. - Newmarket Hall

Request catalogs from Jersey Marketing Service
Live Internet broadcast on Jersey Auction Live

Cash awards of \$12,410.00 and the **Sunny Day Farm Trophy**, sponsored by Sunny Day Farm and Her-Man Jerseys, Chester, SC will be presented for the 2024 Pot O'Gold Production Contest.

RULES

Eligibility to Purchase

Animals in the Pot O'Gold Sale can only be purchased by juniors between the ages of 7 and 20 (inclusive) on January 1 of the sale year, who reside in the United States or Canada. A junior may purchase only one Pot O' Gold calf per contest year.

Related or unrelated youth may purchase an animal to be transferred to them in partnership. A junior may not purchase an animal consigned by a member of his or her immediate family.

Loss, death or transfer of ownership of any purchase before the record is complete will eliminate the heifer and owner(s) from the Pot O'Gold Production Contest.

Production Contest

Seventeen percent (17%) of the gross sales will be set aside in a Pot O'Gold Fund. This fund will provide cash awards for the owners of the 22 calves that complete the highest records ranked by total product value.

Testing Requirements

All heifers shall be tested in a DHI herd owned by the purchaser, or the purchaser's parent(s) or legal guardian(s). In the event this is not possible, a written request to test the heifer in another herd shall be made to the All American Executive Committee by December 31 of the year the heifer is purchased. In any case, the heifer cannot be tested in the herd(s) owned by her breeder and/or consignor.

DHI records will be confirmed by files obtained from the Council on Dairy Cattle Breeding (CDCB). If completed in Canada, records shall be a form of test recognized by the American Jersey Cattle Association (AJCA) or Jersey Canada.

Eligible Records

Records shall be submitted to the American Jersey Cattle Association no later than July 1 of the contest year. Only first-lactation records are accepted, provided the heifer calves before 30 months of age.

Records shall have a minimum Data Collection Rating (DCR) of 90 to qualify.

Rankings are determined by adjusting the records for age and month of calving using USDA regional factors (305-day, 2x, m.e.) provided by Council on Dairy Cattle Breeding, then applying FMMO protein, butterfat and other solids values for the previous calendar year (e.g., 2023 for 2024 production contest), plus a weighted average PPD.

Eligibility

Animals eligible to show at the national show level in the United States and Canada are eligible to exhibit. All United States animals shall be registered in the full herdbook of and have registry certificates issued by the American Milking Shorthorn Society. The certificate shall be white and shall not have the words "Not eligible to show" printed near the Executive Secretary or AMSS Representative signature or as a watermark across the page. Animals with a prefix of GI, GI2, GR, and GE are not eligible to be shown. Females with a 36000 or 37000 registration number are not eligible to be shown. Tattoo numbers, fair tags, and/or RFID tags shall correspond with the registry certificates. All Canadian animals shall be registered in the Canadian Milking Shorthorn Society official herdbook, be 75% purity or greater, and be true to breed standard for Milking Shorthorn type and color. Any Milking Shorthorn with black hair cannot be shown unless released by the AMSS Executive Secretary or AMSS Representative.

Specific Rules of Eligibility

1. To be eligible to be shown, a Milking Shorthorn base hair color shall be red, white, or roan (red and white intermixed). No other base color is allowed.
2. Disqualifications for color beyond rule 1 above include animals that are brindled with diffuse black hairs on locations other than the edge of the ear, edge of the muzzle, or nape of the shoulder, or animals that have more than one location with black hair on other parts of the body.
3. "Black Hair" for purpose of these rules refers to hair that is black the entire length of the shaft to the root.
4. Minimal black hair described as "ticking" around the edge of the ears, edge of the muzzle, and shoulder nape is permissible.
5. An animal is eligible to be shown if it has no more than one "spot" of black hair smaller than four square inches.
6. "Black Spot" refers to areas of solid black hair or areas of black roan with diffuse white or red hairs intermixed.
7. Measurement is made around the distinct edge of the area in question.
8. If an animal has one spot larger than four square inches, or more than one spot, it is ineligible to be shown.
9. Any animal with one spot smaller than four square inches that is to be shown shall be blood/DNA typed for parental identification. If parental ID is

- confirmed, the animal is eligible thereafter for all show and national awards.
10. Any animal the Executive Secretary or AMSS Representative examines and finds to have one or multiple black spots, regardless of eligibility for showing, is required to be blood/DNA typed for parental identification to maintain registry status.
 11. As there exists a lack of uniformity in varying show venues across the country in response to enforcement of the Black Hair Rule, the Board of AMSS has stipulated the following: only the Executive Secretary of the American Milking Shorthorn Society or AMSS Representative shall have authority in determining eligibility of animals under the Black Hair Rule. The Executive Secretary or AMSS Representative is required to be in attendance at all accredited national shows.
 12. When the Executive Secretary of the American Milking Shorthorn Society or AMSS Representative is in attendance at a national show, or if she/he is at any other venue in which Milking Shorthorns are being exhibited as registered cattle in the AMSS Herd Book, she/he may, at their discretion, or at the request of either the owner of an animal or other exhibitor, examine an animal for eligibility due to the above color requirements or other considerations.
 13. If the Executive Secretary or AMSS Representative is requested by a party other than the owner to examine an animal for any reason, the person requesting the examination shall first post a \$150 nonrefundable fee with the Executive Secretary or AMSS Representative.

AMERICAN MILKING SHORTHORN SOCIETY DEFINITIONS FOR BREEDER AND EXHIBITOR:

Breeder - The breeder of the animal shall be the name of the person, farm, or partnership, as it appears on the registry certificate (owner of dam at time of service). Where a herd is registered in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), but the prefix remains the same, all entries may be considered as exhibits of one breeder. When animals are bred in partnership or syndicates, each unique entity is considered a unique breeder.

Bred and Owned - To be eligible for Bred & Owned awards, one of the breeders shall be listed as one of the current owners. Where a herd is registered in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), and the one of those members is an owner, that entry may be considered as Bred and Owned. If a breeder was part of a partnership and remains as an owner then the animal is considered Bred and Owned.

Exhibitor - The exhibitor shall be an owner of the animal and appear on the registry certificate. Where a herd is registered or bred in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), and where Herd Unit requirements are met, all entries may be considered as a single exhibitor. When animals are owned in partnership or syndicate, each unique entity is considered a unique exhibitor.

Herd Unit - If a herd is registered in the names of different members of an immediate family (grand/parents, spouse, siblings, grand/children), of the herd owner, these persons may be considered one breeder/exhibitor. To be considered part of the Herd Unit all animals shall be: A) Housed in the same location (same premise ID). B) Under the exclusive care and management of the herd owner. C) Health tested and production tested with the owner’s herd - All animals listed on the same forms with the same herd code.

D) When the “Herd Unit” option is elected, all animals owned and exhibited by any member of the unit shall be shown under the “Herd Unit” entry - A list of names of all individuals owning animals included in the “Herd Unit” and the name of the “herd Unit” shall be submitted with the application for entry and will be considered as one exhibitor throughout the show.

Partner or syndicate owned animals are not included under a Herd Unit.

Any uncertainty, or dispute, with the above definitions should be addressed with the AMSS Executive Secretary (or AMSS Representative present at the show) prior to the show. Their decision will be final.

Show Rules

1. Eligibility: Participation in this show is open to youth with registered Milking Shorthorns. Exhibitors shall be a minimum of nine years old but not have reached their 21st birthday by January 1st in the year competing. Members who become 21 years of age during the current year will be allowed to compete in Junior activities until December 31st of the current year. Juniors are expected to follow the PDCA showmanship scorecard for all National Junior Shows.
2. Registration: All animals shall be registered in the full herdbook of the American Milking Shorthorn Society and have registry certificates issued by the American Milking Shorthorn Society. All rules for the alternate leadsperson form apply. A Junior can own multiple animals in a given class, but only two may be exhibited. Additional animals shall be leased by another Junior or if animal is owned in a partnership, the animals can be exhibited by another member of the partnership.

If the owner cannot attend the show, an Alternate Leadsperson shall be a National Milking Shorthorn Junior member, who is the same age or younger or up to three years older than the owner OR who is a sibling (full, half, step, foster) of the owner. All Alternate Leadspersons shall meet the age guidelines of a minimum of nine years old but not have reached their 21st birthday by January 1st in the year competing. Alternate Leadsperson may show the animal with approval of the Executive Secretary or board appointed delegate known as the "Breed Representative." A Request for Alternate Leadsperson form shall be submitted to the AMSS Executive Secretary by email to Executive-Secretary@milkingshorthorn.com or hand delivered by five o'clock (5 p.m.) the day before the show to either the Executive Secretary or Breed Representative. Requests shall be submitted by this time or the animal is ineligible to show, unless there is an unforeseen circumstance. The owner of the animal is to show at least on national qualifying Junior show, to receive Junior All American recognition. The Request for Alternate Leadsperson form is available at www.milkingshorthorn.com or from show management. The only exception to this rule is for an alternate leadsperson for showing/leading in the Champion Classes (Junior, Intermediate, Senior and/or Grand). General Rules

1. To be eligible to exhibit in the Junior Steer Show, the exhibitor must not be more than 21 years of age on January 1 of the current year.
2. All animals must be exhibited by the youth in whose name entry is made except in the case of more than one entry per class, in which case a bona fide youth member must exhibit the animal. Exception to this rule (in case of emergency) must have written approval by 8:00 a.m. on the show day by the superintendent.
3. The entry deadline for the steer show will be October 8, and there will be an entry fee of \$80.00 per head. The late entry deadline for the steer show will be October 15, and there will be a late entry fee of \$150.00 per head.
4. All steers must have a minimum weight of 950 pounds, with no maximum weight.
5. Weights will be submitted via QR Code on the exhibitor's backtag that the exhibitor will pick up during check-in. Weights must be turned in via QR Code submission for each Steer by 1:00 p.m., Saturday, November 16. The weight submitted will be the declared show weight of the steer. Scales will be available for the exhibitors' use from 9:00 a.m. until 5:00 p.m. Saturday and 8:00 a.m. until 12:00 noon Sunday. All steers must be checked in (November 16, 9:00 a.m. - 12:00 noon) before weights are submitted. By submitting the weight card, the owner/exhibitor agrees to all the NAILE rules and regulations, including ownership and code of ethics. All violations will be reviewed by the Exposition management and/or the Executive Committee.
6. There will be no changing of weights after the weights have been submitted.
7. Steers will not be shown by breeds. All steers will be divided into classes of not more than approximately 20 head per weight class.
8. No more than two premiums per class will be paid to any one exhibitor regardless of the number entered.
9. All steers will be released after the show. A cash market may be provided for all steers. NAILE is not responsible for prices paid or issuing checks.
10. The top ten placings in each class will receive premium awards and ribbons.
11. After each class of steers is placed, only the top ten steers will be weighed on the

official scales in the show ring by show officials. Each steer must be within 4% above or below the declared show weight as previously designated by the exhibitor on the weight card. If any steer is out of its weight range, it is disqualified and the remaining steers move up in placing. The disqualified steer is not eligible for any other class and will not be reweighed. The 1st and 2nd place class winners will be reweighed before the championship class. 1st and 2nd place class winners that are disqualified in the reweigh for the championship class will not be eligible for the champion but will still receive premiums won in the previous individual class.

12. All steers will be subject to official veterinarian inspection prior to entering classes or prior to leaving ring after class has been placed.
13. After selection of the top five champions, the Grand Champion and Reserve Grand Champion animals become the property of the North American International Livestock Exposition.
14. The top five market animals will be drug tested. Random animals may also be selected for drug testing. At time of testing Animal Affidavit Forms will be available to provide information of any medication given that could be inside the withdraw period. For additional rules and information, please refer to the National Code of Show Ring Ethics in the General Rules starting on page 21.
15. All Grand and Reserve Champion animals will be processed, and the carcasses and hides of each animal will be inspected and evaluated for tampering. This would include but is not limited to inspection of the carcass and hide for injection sites that do not conform to typical animal husbandry practices. Any animal with an abnormal carcass or hide due to the injection of air or any other substance in order to alter the conformation or appearance of an animal may be subject to disqualification including loss of premiums, prizes, and awards received. Exhibitors may also be banned from future competition.
16. All of the General Rules and Regulations for the North American International Livestock Exposition will apply to this show.

American Angus Association Policy

At shows where classes are made up and broken after the cattle have been checked in, the breaks will follow the standard show classification.

The individual class classification for this system will be determined by the animals that are checked in at the show.

Breeding Show Classification

Any classes listed in this classification, which exceeds 15 head per class, should be broken into smaller classes. - Shows with 100 – 200 head: 12 head or less per class
- Shows with more than 200 head: 15 head or less per class.

Class breaks will be at the discretion of the American Angus Association staff in attendance. If there are more than 30 head in a division, the division should be split into Division 1, 2, etc.

Special Rules for Angus Class – Participation Statement

The American Angus Association®, 3201 Frederick Avenue, St. Joseph, Mo., will participate in premiums offered in individual classes for junior Angus heifers, as included in its standard show classifications, according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The premium assistance should not be used to offset show expense and shall be included in the premium payments distributed by the show to the exhibitors.

A minimum of fifteen (15) head must be shown in the Junior Angus heifer classes to receive American Angus Association premium participation. The show is not required to have all classes to be eligible for premiums.

Separate classes for bred and owned heifers may be held if the size of the show merits a separate class.

To be eligible for Association premiums, the entries must be recorded in the sole name of the junior exhibitor, and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership. The Association's contribution is included in the total premiums listed in each class.

Premiums from the Association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay on premiums offered in championship classes. An animal may only be counted one time toward the total count for premium participation by the Association.

Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look up. Any animal, upon check-in, that does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks, or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.

Any female shown with a calf at side: the calf must be the cow's most recent natural calf, and the calf must be registered by show day and have proof of registration at check in.

Only one person at a time shall lead an animal into the show ring.

Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800 - 810. 1. All animals must be registered in the American Wagyu Association herd book and recorded in the name of the exhibitor 30 days prior to the NAILE. Exhibitors must have a registration certificate for each animal available for inspection at the show. There will be six breeding group class shows: Fullblood Black, Fullblood Red, Fullblood Red/Black, Purebred Wagyu, Percentage Wagyu, and a Steer Class. For the purpose of this show, Wagyu percentage means animals that qualify for the percentage category according to the AWA rules. Breeding group classes will not compete with each other.
2. Cattle must be entered under the recorded ownership at the time of the show entry deadline. Jointly owned animals must be entered under the multi-ownership (co-owners) in the individual classes.
3. All animals must be properly tattooed and will be inspected at the show. Tattoo must be legible and must match registration papers. Any animal, upon check-in, that does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks, or hot-branded marks) corresponding to the permanent identification on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be retattooed and rechecked at the show.
4. Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, use of false tail heads, or use of any false hair. The use of paint, glue, graphite, powders, hemp, or other similar substances used externally is also prohibited. Animals may not be dyed on the show grounds. Other prohibited products include illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

11. Authorized representatives of the Association have the authority to enforce the rules set forth herein, including barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.
12. Judges will have no previews of competing cattle or meetings with show exhibitors prior to the show. This is to maintain impartiality for all competitors and judges. Violations of the rule will result in disqualification of judge, competitors, and/or animals.
13. If for any reason an exhibitor or their animal is disqualified, their placing/winnings will go to the exhibitor who placed next behind them.
14. There will be a Junior Showmanship Division. Novice (8yrs to 18yrs NEVER SHOWN BEFORE), Juniors (8-10 years), Intermediates (11-14 years), and Seniors (15-18 years). No bulls will be allowed for safety reasons. Cattle used in showmanship classes do not need to be owned by exhibitor but do need to be properly fitted and entered in the NAILE American Wagyu Association Show competing in at least one sanctioned class in the current year. Judging is solely on the exhibitor's ability to show the animal to the best of their ability. Additional ring stewards will be added for these classes for safety reasons. Animal disposition is important and unruly animals can be dismissed by the judges, at their discretion and the participant will forfeit the class.
